Re: Remedial Investigation Report for the
Site 9 – Camp Moffett Disposal Area
Naval Station Great Lakes
Great Lakes, Illinois

0971255048 – Lake
Great Lakes Naval Station
Superfund/Technical

Dear Ms. Van Donsel:

The Illinois Environmental Protection Agency (Illinois EPA or Agency) is in receipt of the Navy's additional responses to Agency comments regarding the Revised Draft Remedial Investigation Report for the Site 9 – Camp Moffett Disposal Area, Naval Station Great Lakes, Great Lakes, Illinois. They were submitted via electronic mail in three separate transmissions that were received on January 17th, March 6th and March 26th, 2013. Accompanying those responses were redline-strikeout versions of the revised text of the Remedial Investigation Report. The Remedial Investigation Report presents the results of the September and November 2009 environmental investigation of Site 9 and the subsequent human health risk assessment for the site.

The Agency has reviewed the Navy's responses and has verified that the proposed revisions have been incorporated into the document as indicated. Therefore, Illinois EPA can now concur with the contents of the submittal as written. As requested, Agency personnel have signed the appropriate page and are herein returning said page for inclusion in the final document.

If you have any questions regarding anything in this letter or require any additional information, please contact me at (217) 557-8155 or via electronic mail at brian.conrath@illinois.gov.

In accordance with Public Act 96-0603, which went into effect on August 24, 2009, any person who knowingly makes a false, fictitious, or fraudulent material statement, orally or in writing, to the Illinois

EPA commits a Class 4 felony. A second or subsequent offense after conviction is a Class 3 felony.
(415 ILCS 5/44(h))

Sincerely,

Brian A. Conrath
