Great Lakes Naval Station
Superfund Technical File

Remedial Action Completion Report
For Site 2 – Forrestal Landfill
Naval Station Great Lakes

Dear Mr. Davis:

The Illinois Environmental Protection Agency (Illinois EPA or Agency) is in receipt of the submitted signature pages for the Navy's Remedial Action Completion Report for Site 2 – Forrestal Landfill, Naval Station Great Lakes, Great Lakes, Illinois. They were dated November 13, 2009 and were received at the Agency on November 16, 2009. The Remedial Action Completion Report documents the implementation of the Forrestal Landfill Cap Work Plan, which occurred in 2004 and 2005, and was submitted to the Agency for review and comment.

Illinois EPA has reviewed the report and the Navy's responses to comments and has nothing further to add. All previous Agency comments have been properly addressed. Therefore, I have provided my signature on the appropriate page and am herein returning the fully executed pages to be included in the final report. The Agency requests that you provide two complete copies of the final report for our files.

6.0 CERTIFICATION

The remedial actions described in the EE/CA and WP for the Forrestal Landfill have been completed, and the RAOs have been achieved. Long-term management of the site, including cap inspection and maintenance, institutional controls, inspections and groundwater monitoring, is ongoing to make sure that the RAOs will continue to be fulfilled.
