Biff, Terese, Bob,

Illinois EPA has reviewed the provided documents, responses to comments, etc. and has determined that the SAP is ready for signature, save one small item. On worksheet 16, the Project Schedule/Timeline still shows a 30 day turnaround for Agency review of submitted reports when it should show 45 days (~30 working days). As this is a minor issue and does not really affect the study data, the Agency can overlook it at this time. Please remember though, in the future, that a minimum of 30 working days is necessary for the Agency to provide an adequate review of study documentation.

If you have any questions, please give me a call at 217-557-8155.

Respectfully,

Brian A. Conrath
Illinois EPA
