Contract Task Order F27A

Subject: Draft Final Sampling and Analysis Plan Addendum  
Phase 2 Remedial Investigation for  
Site 12 – Harbor Dredge Spoil Area  
Naval Station Great Lakes, Great Lakes, Illinois

Dear Mr. Brian Conrath:

Please find enclosed two electronic copies (CDs) of the subject plan for Illinois EPA's review and concurrence. The plan addresses the additional soil sampling that the Navy will conduct at Site 12 to address the soil-to-groundwater migration issue. The Navy and Illinois EPA previously discussed and agreed to the scope of the additional sampling program during comment resolution for the draft Remedial Investigation Report. It is requested that Illinois EPA expedite their review of the plan because the field program is scheduled to be completed the week of December 17, 2012.

After Illinois EPA provides their input and/or concurrence on the plan, a final version of the plan will be prepared and hard copies and electronic copies will be distributed to the team for their records. I will route separately by electronic mail the plan's approval page to the Navy and Illinois EPA for their signature. If you have any questions regarding the plan, please contact me at 412-921-8984.

Sincerely,

Corey A. Rich, P.E.  
Project Manager
