Re: 0971255004 -- Lake County
ACOS Installation & Env.

Dear Groundwater Coordinator:

This letter is being sent to you to because your facility currently submits reports documenting the results of routine groundwater and leachate sampling events at your facility to the Illinois EPA. At this time, the Illinois EPA is requesting that your facility begin the process to submit the groundwater data electronically. In order to assist you in this process the Illinois EPA's web site will soon have information associated with the formatting requirements for the electronic reporting of groundwater data.

The Illinois EPA is committed to the protection of groundwater in the State of Illinois and better management of the groundwater data submitted to measure a facility's impact on groundwaters of the State. Your Permit or Closure Plan will be modified in the near future to require the submission of all groundwater and leachate data electronically. Therefore, the Illinois EPA strongly urges your facility to begin this process so that groundwater and leachate data from your facility can be submitted electronically beginning with the next reporting of sampling results. Thank you for your cooperation in this matter.

The Illinois EPA will be hosting a seminar addressing electronic reporting, on May 8, 2001 from 10:00 - 12:00 in the Illinois EPA's TQM Room, to assist you in this endeavor. Should you have questions regarding the submittal of groundwater data electronically and/or the seminar please contact Bur Filson of my staff at 217/782-6070.

Sincerely,

Joyce L. Munie, P.E.
Manager, Permit Section
Bureau of Land
