RE: Reminder to Place Correspondence from U.S. EPA
Into CERCLA Administrative Record (AR)
Ft. Sheridan, Illinois

Dear Mr. Balliett:

I have not yet received written replies to my two letters of October 26 nor my letter of November 1, 2001. In fact, the last written communication that I have received from an Army employee at Ft. Sheridan was Colleen Reilly's July 9, 2001 letter responding to U.S. EPA comments on the GFPR scope of work.

All written correspondence from U.S. EPA to you should be considered crucial documents that form the basis for the selection of response actions at Ft. Sheridan. Please make the three subject letters, and all subsequent written and electronic U.S. EPA correspondence with the Army BRAC Environmental Coordinator (BEC, currently you) available for community inspection by placing them into the CERCLA Administrative Record at Ft. Sheridan. I am authorized to do this by the National Oil and Hazardous Material Pollution Contingency Plan (NCP), Section 300.800(b).

Call me at 312 886-4843 if you have any questions.

Sincerely yours,

W. Owen Thompson
Remedial Project Manager
