PUBLIC COMMENT PERIOD FOR PROPOSED PLANSite 12 Harbor Dredge Spoil Area Naval Station, Great Lakes, Illinois The Navy's Proposed Plan concerning the environmental contamination present at Site 12 of the Naval Station in Great Lakes (NSGL), Illinois is available for public review and comment.Public comment period is: Monday, February 1, 2016 through Tuesday, March 1, 2016Send written comments to: NAVSTA Great Lakes Public Affairs Officer, 2601 E. Paul Jones Street, Great Lakes, IL 60068 or email to: john.l.sheppard@navy.mil.The Navy prepared this plan under the federal Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and with concurrence from the Illinois Environmental Protection Agency (Illinois EPA). As required under CERCLA, a 30-day public comment period for the Proposed Plan is being held.The plan proposes Land Use Controls (LUCs) as the remedial alternative. The LUCs will limit future site uses to non-residential activities (prohibits residential development) and restrict groundwater use (allowing arsenic in the groundwater to decrease by natural chemical and physical processes). These LUCs will be incorporated into the Base Master Plan to ensure that the restrictions and prohibitions are applied and enforced. While LUCs are in-place, annual inspections and Five Year Reviews (FYRs) will be necessary. The proposed alternative is protective of human health and the environment and is intended to be the final action at this site. However, in response to public comments or upon receipt of new information, the proposed alternative could change. The Navy, with input from Illinois EPA, will make a final decision after reviewing and addressing the public's comments. Therefore, the public is encouraged to review and comment on the Navy's Proposed Plan. The Proposed Plan is held in the NSGL Administrative Record which contains all regulatory documents regarding CERCLA actions at NSGL and is available online at <http://go.usa.gov/3SNHA>. From that web site, click on "Administrative Records," select "Administrative Record File," and search for "SITE 00012". A hardcopy of the Proposed Plan is available at NSGL and/or at Illinois EPA. For NSGL, please contact the Public Affairs Officer at (847) 688-2430 extension 359 from Monday through Friday 9 AM to 5 PM. Comments on the Proposed Plan must be provided in writing. Written comments sent by email or mail must be postmarked/dated no later than March 1, 2016. If significant interest is expressed and a formal written request is made, a public meeting will be held to discuss the findings and recommendations of the Proposed Plan. 1/14/2016 3873842
