NOTICE OF AVAILABILITYRECORD OF DECISIONSite 5 – Transformer Storage BoneyardSite 9 – Camp Moffett Ravine Fill AreaSite 21 – Buildings 1517/1506 AreaNaval Station Great Lakes In 2015, the Navy and the Illinois Environmental Protection Agency (Illinois EPA) signed the Record of Decision (ROD) for the Naval Station Great Lakes' (NSGL) Sites 5, 9, and 21. This ROD documents the selected remedy for these three sites under the federal Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). As required by CERCLA, a Proposed Plan outlined the selected remedy and underwent a 30-day public comment period from March 14 to April 14, 2014. The selected remedy for these three sites calls for Land Use Controls (LUCs), annual site inspections, and Five Year Reviews. LUCs will restrict groundwater and surface water use, will restrict disturbance of surface and subsurface soil, and prohibit residential development. These LUCs will be incorporated into the Base Master Plan to ensure that the restrictions and prohibitions are applied and enforced at the sites. While LUCs are in-place, annual inspections and Five Year Review will be necessary. The selected remedy is protective of human health and the environment and is intended to be the final action at these sites.The ROD is held in the NSGL Administrative Record which contains all regulatory documents regarding CERCLA actions at NSGL and is available for public review online at <http://go.usa.gov/3SNHA>. From this website, just click on the "Administrative Record" tab and search for "SITE 00005", "SITE 00009", or "SITE 00021". A hardcopy of the ROD is available at NSGL and/or at Illinois EPA. For NSGL, please contact the Navy Public Affairs Officer at 847-688-2430 x359 from Monday through Friday 9 AM to 5 PM. For Illinois EPA, you can submit your request via the Freedom of Information Act (FOIA) webpage: www.epa.state.il.us/foia/ or visit their Springfield office on 1021 N.
