Subject: RE: JEB Little Creek FYR

Bryan,

EPA has reviewed the latest track changes version of the document. Minor EPA comments were provided via a conference call held today (March 17, 2014). See below.

- In each appropriate section X.5 delete “and recommendations for follow-up action” from the added sentence.
- With respect to Summary of Estimated Remedy Costs, Copy the following sentence to from Site 11a to Site 13 – “Changes to estimated remedy costs should be evaluated and the appropriate documentation prepared.”

EPA has no further comment to offer at this time. Don’t hesitate to cal with any questions.

Importance: High

Team,

Attached is the revised redline JEB Little Creek FYR. This redline represents changes made as a result of Navy legal/technical review and additional comments received from VDEQ via email on 3/13. The changes made as a result of formal comments received have been accepted and are not represented in redline in the attached version. Of note, as mentioned by Bryan in a previous email, the protectiveness statements for Sites 9, 10, and 11 have been retained as short-term protective. Please take a look at the attached document and let us know if you have any questions or comments.

Thanks,
Cecilia
