Dear Mr. Herman:

On behalf of the Navy, CH2M HILL is pleased to submit the following response to the comments from VDEQ received via email on November 13, 2015 on the *Site Management Plan Fiscal Years 2016 through 2020, Joint Expeditionary Base (JEB) Little Creek-Fort Story, JEB Little Creek, Virginia Beach, Virginia*:

Comment 1: Section 2.4: The heading for what was Section 2.4.1 in the draft version is found at the end of the 4th paragraph. Please create Section "2.4.1 Remedy In-Place Sites" and renumber the "Response Complete Sites" Section.

Response: The suggested revision has been made.

Comment 2: New Section 2.4.1: In the Site 9 write up, the figure identified in the 2nd paragraph should be Figure 2-3. Please correct.

Response: The suggested revision has been made.

Comment 3: New Section 2.4.1: In the Site 12 write up, the 2nd to last paragraph indicates the re-injection work plan was finalized in September 2015. Please confirm this completion date as the draft document indicated it was completed in March 2015.

Response: The initial re-injection work plan which included Sites 11 and 12 was finalized in March 2015; however, the re-injection work plan was later revised to only include Site 12 and the Site 12 re-injection work plan was finalized in September 2015. No changes to the document were made.

The above responses will be incorporated into the final version of the JEB Little Creek FY 2016 through 2020 Site Management Plan.

Please do not hesitate to contact me at 757-671-6280 if you have any questions concerning the responses.

Sincerely,
