July 27, 1998

To Restoration Advisory Board Members:

The Naval Amphibious Base (NAB) Little Creek is pleased to announce the availability of the Draft Final Closeout Report for the Remedial Action at Site 7, The Amphibious Base Landfill. Included with the report is a Remediation Summary, describing the second phase of the Remedial Action. The implementation of the two phases, finished on June 3, 1998, completes all requirements for the Action at Site 7, as stated in the approved Design, May 1997. Groundwater, surface water and sediment will continue to be monitored to ensure that the Action was successful and the Remedial Action Objectives were met. Site 7 will be discussed at the upcoming RAB meeting on September 3, 1998.

The Draft Final Closeout Report is enclosed for those members requesting a copy, otherwise, the Executive Summary and Remediation Summary is enclosed. The documents are also available for review at the information repositories and at NAB Little Creek. If you have any questions, please contact Kelly Greaser at 462-4571.

Sincerely,

MAUREEN E. CONNORS
Environmental Quality Division
By direction of
the Commanding Officer
