Subject: Naval Amphibious Base Little Creek (NABLC)
*Survey Plats for Site 9, Driving Range Landfill and
Site 10, Sewage Treatment Plant Landfill*

Dear Mrs. Hayes:

The Virginia Department of Environmental Quality (VDEQ), Office of Federal Facilities Restoration has reviewed the *Survey Plats for Site 9, Driving Range Landfill and Site 10, Sewage Treatment Plant Landfill* dated March 2004. Based on the VDEQ review we offer the following comments:

1. The survey plats do not show the locations of the signs. While the plats clearly depict the locations of the monitoring wells, they should also depict the locations of the signs posted on the perimeter of each landfill. Unless such changes may be accomplished at relatively little cost, modifications to the survey plats are not warranted at this time as the sign locations are shown on Figure A-1 of the *Remedial Design for Land Use Controls*. If modifications to the survey plats are required for other purposes, then the sign locations should be incorporated into the plats at that time.

If you have any questions concerning this comment, please give me a call at (804) 698-4464.

Sincerely,

Paul E. Herman, P.E.
Remediation Project Manager
