Re: Final Draft Closeout Report for Removal Action at
Site 16, PCB Capacitor Spill, Pole No. 425, Naval
Amphibious Base Little Creek, Virginia Beach,
Virginia

Dear Mr. Knight:

The Atlantic Division, Naval Facilities Engineering Command
is pleased to submit one copy of the subject document to you
for review. Your comments on this document are requested by
July 10, 1996.

This document is being distributed to Virginia Department of
Environmental Quality, EPA Region III, U.S. Fish and
Wildlife, and all Restoration Advisory Board members
requesting a copy. In accordance with the National
Contingency Plan, copies have been placed in the Information
Repositories and the Administrative Record for NAB Little
Creek.

If you have questions, please contact me at (804) 322-4788.

Sincerely,

S.R. PARK
Remedial Project Manager
Installation Restoration Section,
(North)
Environmental Programs Branch
Environmental Quality Division
By direction of the Commander
