Reference: CLEAN Contract No. N62470-08-D-1001  
Contract Task Order No. WE61

Subject: Draft Sampling and Analysis Plan,  
IR Site 19, Former Derecktor Shipyard,  
Naval Station Newport, Newport RI

Dear Ms. Keckler, Mr. Jablonski:

On behalf of Ms. Winoma Johnson, US Navy NAVFAC Mid-Atlantic, I am providing to you each three copies of the Draft Sampling and Analysis Plan for Data Gaps Investigation for marine sediment at the former Robert E. Derecktor Shipyard (IR Site 19) at Naval Station Newport. This document has been prepared in the Uniform Federal Policy (UFP) format, based on the discussions held between the U.S. EPA, the RIDEM, the Navy and others in late 2010, as documented in Appendix C.

We recognize that the FFA for NETC Newport stipulates that your office provide comments within 45 days of this letter (July 15, 2011). However, in the interest of resolving comments in time for work to be conducted during the 2011 field season, and in consideration of the planning meetings already held, we respectfully request you consider a shorter review cycle.

If you have any questions, please do not hesitate to contact me at 978-474-8434.

Very truly yours,

Stephen S. Parker, LSP  
Project Manager
