Subject: Additional Responses to EPA and RIDEM Comments on the DF FYR
Attachments: DF FYR comment responses.docx

Hi Kymberlee and Pam,

Per my e-mail from yesterday, I am providing additional responses to EPA and RIDEM comments on the Draft Final Five-Year Review Report. Please see the attached Word file. This group of comments all relate to the Site 1 McAllister Point Landfill sediment and porewater data review and other sections that reflect conclusions of that data review. Other than the comments that are planned for discussion next week at the RPM meeting, you should now have responses and proposed revisions for all comments that were not straightforward edits or additions. If these edits are not acceptable, feel free to give me or Mark Kauffman a call directly to work through additional edits.
