Subject: STATUS OF DERA PROJECTS AT NETC NEWPORT

1. We called Paul at the request of NETC to determine if a meeting is necessary to discuss subject. Paul was briefed on plans to halt work at Tank Farm 4 at a recent TRC meeting. It was assumed that he would then brief people in the UST Section.
2. Paul said he has only spoken to Dan Russell about our plans and Dan did not object. It was DEM's original understanding that we would only close 2 or 3 tanks per year, so we are actually ahead of schedule.
3. Paul agreed to speak to Tom Epstein and Eric Beck when they return to the office next week. It was also agreed that a meeting would not be necessary.
