Lester, PA 19113-2090

Dear Ms. Stockdale:

This letter is in response to your 02/10/93 memo regarding a change to proposed background soil sample locations.

I concur with the Navy's recommendation that a maximum of 12 soil sample locations be maintained, but that 3 be relocated to lands recently purchased by the Navy, as shown on the map attached to your memo. Bill Mansfield and I have visited each of the off-base sites and believe they are similar in terms of soil type as found on the Subase.

Thank you for listening to my concerns and acting favorably on my recommendation.

Sincerely,

William R. Haase
Planning Director
