Subject: Draft Third Five-Year Review Report
Naval Submarine Base-New London, Groton, Connecticut

Dear Mr. O'Connor:

Please find enclosed two hard copies and two electronic copies (CDs) of the subject report for your review and comment. Copies of the report were also distributed to the other members of the New London team per the distribution list provided below for their review and comment.

Per discussions with you and the former Remedial Project Manager, Mr. Jim Gravette, it is Tetra Tech's understanding that the deficiencies identified during the Third Five-Year Review inspection at Site 2A (equipment in the no-loading area) and Site 8 (above ground storage tank) will be resolved prior to the report being finalized in December 2011 and the appropriate documentation from the corrective actions for both deficiencies will be incorporated into appendices of the final report.

Please provide your comments on this report by September 9, 2011. If you have any other questions regarding the enclosed report, please contact me at (412) 921-8984.

Sincerely,

Corey A. Rich, P.E.
New London Base Coordinator/Project Manager
