Subject: Draft Lower Subbase (Operable Unit 4) Record of Decision
Naval Submarine Base-New London, Groton, Connecticut

Dear Mr. O'Connor:

Please find enclosed two hard copies and two electronic copies (CDs) of the subject Record of Decision (ROD) for your review and comment. Copies of the document were also distributed to the other members of the New London team per the distribution list provided below for their review and comment.

The ROD is a complex document because of the number of sites and media that are covered in it. The format of this ROD is similar to other recently submitted Navy RODs with the exception of the human health risk assessment results. After regulator input on the document is received, the Navy may consider consolidating some risk information contained in Appendix F into the body of the ROD in text or table format to achieve an overall format consistent with other recent Navy RODs.

Comments on the enclosed draft ROD are due within 60 days (February 17, 2012) per the New London FFA review schedule for primary documents. If you identify any preliminary issues with the ROD that need to be clarified, they can be discussed during the technical meeting planned for January 19, 2012. If you have any questions regarding the enclosed document or schedule, please contact me at (412) 921-8984.

Sincerely,

Corey A. Rich, P.E.

New London Base Coordinator/Project Manager
