Dear Mr. Reisch:

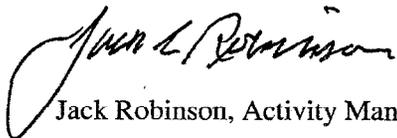

Here are two copies of the Final Project Plan Addendum for Sampling for the Phase III RFI. This Addendum to the RFI Final Work Plan defines sampling tasks and field investigation procedures that will be performed during the additional Naval Air Station, Oceana investigation and site characterization to take place on July 19 through September 3, 1999. This document serves as both a project plan addendum and as project instructions for the field team.

I have also forwarded one copy of each memorandum to Bob Stroud at EPA, Peter Knight at EPA, and Steve Mihalko at VADEQ.

If you have any comments or questions, please call me at 703/471-6405 x4321.

Sincerely,

CH2M HILL

Jack Robinson, Activity Manager
