DRAFT Work Plan Addendums for Sites/SWMUs 1, 2, and 3
(August 1999)

The Division of Hydrogeology has reviewed the DRAFT Work Plan Addendums for Sites/SWMUs 1, 2, and 3, dated 3 August, 1999. The documents were received on 4 August, 1999. The work plan addendum for SWMU 1 proposes dioxin sampling at specific locations within and around SWMU 1. The work plan addendum for SWMU 2 proposes test pitting within the SWMU to confirm the presence or absence of waste material. The work plan addendum for SWMU 3 proposes additional sediment sampling to delineate nature and extent of contamination within the sediments surrounding SWMU 3.

This document was reviewed with respect to R.61-79 of the South Carolina Hazardous Waste Management Regulations (SCHWMR), and appropriate guidance documents. These work plan addendums are concise, and well written. The Division of Hydrogeology recommends approval and immediate implementation of these work plan addendums.

If you have any questions regarding this decision, please call me at (803)896-4033.
