Hi folks,

We have looked over the OU2 ROD. It looks fine. Is it being routed for signature? I have not received anything yet. Is signature awaiting a formal reply from me to say it is good to go? If so, can you accept this e-mail? If not, let me know and I'll shoot you a real letter.

Just a note for future RODs. Apparently there was one more ROD Guidance change suggested for future RODs. Change Section 1.4 to be entitled "Authorizing Signatures" in accordance with EPA ROD Guidance, since EPA is selecting the remedy not just accepting it as the support agency. If it has not yet been routed for signature, you could go ahead and do this for this ROD, if you please.

Let me know the status.

Thanks,
Lila
