Hey Mark,

Lila and I discussed her changes to the Review Timeframes Table on Page 9 or 10 in the SMP. I think those changes incorporate this idea and this additional wording is not necessary.

Let me know if you have further questions.

Hi Stacey. Charles is out, and I am helping Sarah update the SMP, so we can get this back to the Team. I think that I heard that one point that was important to SCDHEC was to ensure that DHEC wouldn't be held accountable for any early or out-of-order Navy deliverable submittals, and that it was important to SCDHEC to see this written somewhere. Will it be adequate for SCDHEC for us to include the following in the SMP, on page 10 (just after the Review Timeframes Table)?

e. In order to optimize available resources and/or budget, the Navy may choose to complete and submit a document deliverable earlier than is necessary to meet the Navy's SMP due date. The Navy agrees that this type of submittal is not a request to re-prioritize deliverables, and is also not a request to have EPA or SCDHEC initiate an earlier or accelerated review of the deliverable._

Thanks. MS
