1. Executive Summary Page 4 and subsequent sections
Based on the information provided in this report the Department does not agree with the statement that, “the area was mistakenly identified as an aerial bombing target.”
2. Executive Summary Page 4 and subsequent sections
The Department understands no deeds exist for Department of Defense facilities. Therefore it is unclear how a “deed notification” could be accomplished. We believe it would be more appropriate to include a notification in the Base Master Plan. Please clarify this in all sections of the report.
3. Section 3.1.3
The Department believes “disturbed” would be a better fit for the following sentence. “The Partnering Team believed that it was likely that the paved sections of the parade deck were *investigated* during construction to a depth equal to or exceeding the detection depth capabilities of geophysical instruments...”. Please correct in all applicable sections.
