Dear Ms. Cassidy/Mr. McLeod:

Fieldwork for the one-time sampling plan for Groundwater Sampling of Radionuclides is scheduled to begin Wednesday, June 2, 1999. At this time, samples will also be drawn from the monitoring wells at Site 29 for dioxin analysis. Prior to the start of fieldwork we need to discuss the sampling locations at which the contractor will collect split samples.

If additional information is required on the sampling for radionuclides, please contact Jeff Brann at (207) 438 1283. For additional information on the dioxin sampling, please contact me at (610) 595 0567, extension 159.

For the Community Restoration Advisory Board (RAB) members; if you have any comments or questions on these issues, they can be provided to the Navy at a RAB meeting, by calling the Public Affairs Office at (207) 438 1140 or by writing to:
