re: Draft Work Plan for Geological Services for Test Pitting at OU3, Portsmouth Naval Shipyard, Kittery, Maine, December 1999

Dear Fred:

The Maine Department of Environmental Protection has reviewed the document referenced above. Following the Department's review the Navy held a technical meeting on December 15 to discuss the test pitting locations. The MEDEP's few comments (as well as those of Lepage Environmental and USEPA) were discussed at this meeting. In addition, the Navy indicated several changes that were to be made in the work plan.

Based on our phone conversation on December 20, it is my understanding that the Navy will provide minutes of this meeting. These minutes will indicate the comments discussed at the meeting as well as the Navy's responses. Therefore, I will not be providing a formal comment letter for the draft work plan. I look forward to reviewing the draft minutes of the December 15 technical meeting.

Please feel free to contact me at (207) 287-8010 if you have any questions.

Sincerely,

Iver McLeod
Project Manager
Bureau of Remediation and Waste Management
