Subject: June 2003 Responses to Comments on the April 2003 Draft *Addendum to Site 32 Remedial Investigation Quality Assurance Project Plan*

Dear Ms. Raymond:

We are transmitting comments by Lepage Environmental Services, Inc., on behalf of the Seacoast Anti-Pollution League (SAPL) regarding the Navy's June 2003 Responses to Comments on the April 2003 Draft *Addendum to Site 32 Remedial Investigation Quality Assurance Project Plan*. Our comments are as follows:

1. General Comment. SAPL concurs with the Maine Department of Environmental Protection's (MEDEP) comments dated July 24, 2003. Like the MEDEP, SAPL will carefully review the pattern of concentration results to determine if the very high value detected previously at SS-107 is likely an outlier or an error. SAPL has no additional comments at this time.

If you have any questions regarding the comments above, please give me a call at 207-777-1049.

Sincerely,

Carolyn A. Lepage, C.G.
President
