Subject: PNSY Proposed Plan - OU-4

Hi Aaron:

I looked over the Proposed Plan for OU-4 and after 20 years of study (and some frustration) I finally see the light at the end of the tunnel. The proposed plan takes care of the issues that NOAA is most concerned about and therefore provide you my approval of the plan. I am not certain who has taken over for the Navy (I heard that Linda Cole is no longer the RPM) as I did not receive the normal notification of such a change; can you please pass this EMAIL to him/her.

Looking forward to seeing a shovel (or better) in the ground/estuary
