Subject: Re: PORTSMOUTH NAVAL SHIPYARD INSTALLATION RESTORATION PROGRAM - Final Proposed Plan for Operable Unit 4

Thank-you for the Proposed Plan for OU-4 at the PNSY. Given that I likely have the longest tenure in addressing PNSY ecological impacts to the adjacent waters (1989 as a RCRA site), it is very satisfying to see the end of assessment and the

start of remediation come into sight. This has been a long road traveled for many of us. I make note that this remedy takes into account the most serious ecological threats, and plans a remedy that will eliminate such. In fact, its a credit to the Navy and all who have worked on this site OU to see a comprehensive remedy that includes the most protective choices. And not lost is the fact that the Navy selected the most expensive of the remedies. I look forward to seeing a Record of Decision for this OU completed in the near future.

On behalf of the Navy, Tetra Tech is pleased to provide you with an electronic copy of the Final Proposed Plan for Operable Unit 4. The public comment period will begin tomorrow.

The public information session and public hearing will be held on March 13, 2013 after the RAB meeting. Information on the public comment period, public meeting, and how to provide comments during the public comment period are provided in the Proposed Plan.

Please contact Elizabeth Middleton if you have any questions.
