U S NAVY RESPONSES TO WEST VIRGINIA DEPARTMENT OF ENVIRONMENTAL
PROTECTION COMMENTS ON DRAFT 2013 SITE MANAGEMENT PLAN NIROP ROCKET
CENTER WV
9/11/2013
CH2M HILL

***WVDEP Comments and Navy Response to the Draft 2013 Site Management Plan
Allegany Ballistics Laboratory, Rocket Center, West Virginia***

Comments submitted by Catherine Guynn, WVDEP RPM on September 11, 2013

Comments:

1. Section 1.3.5.5, page 1-8, top of page, first complete sentence, “*A Focused Remedial Investigation Report for Site 1 Soil...*” If this is a title of a report, please italicize.

Navy Response: The Title of the report will be corrected to the following, “Final Focused Remedial Investigation for Site 1 Soil, Operable Unit 4”, and italicized.

2. Section 1.3.5.5, page 1-8, second paragraph, last sentence, “*The results of the study were presented in a draft report in 2006.*” Please provide the name of the draft report.

Navy Response: The Title of the report will be added to the text “Draft In Situ Chemical Oxidation Pilot Study at the Solvent Disposal Pit Area of Site 1” and a reference was added to the Reference Section.

3. Section 1.3.5.7, page 1-9, first paragraph, last sentence, “*To remain consistent with the designation of sites at ABL, Site PWA was renamed Site 10 in 1995.*” This is the same sentence as the second sentence of this paragraph.

Navy Response: The last sentence of that paragraph will be removed.

4. Section 1.3.5.8, page 1-10, third paragraph, “*Previous Investigations at Site 11 in 1995, an Advanced Site Inspection (ASI) was conducted to characterize potential groundwater and soil contamination....*” The sentence appears to begin with two statements that, although worded differently, mean the same thing. Please revise this sentence for clarity.

Navy Response: The 3rd paragraph will be edited for clarity as follows: “In 1995, an Advanced Site Inspection (ASI) was conducted to characterize potential groundwater and soil contamination in and around Production Well F (F-Well) and a former oil pit at the construction site for Building 421.”

5. Section 1.3.5.9, page 1.11, fourth paragraph, last sentence, “The proposed RI activities for Site 12 are presented in the Final Work Plan Addendum for Phase III Investigations at SWMUs 27A and 37V and for Remedial Investigation of Site 12”. If this is the name of one report, or two reports, please italicize.

Navy Response: The report title will be italicized.

6. Section 2.2.1, page 2-3, first paragraph, first sentence, “*Areas identified as AOCs in the FFA, undergo a document evaluation*”. If provide what AOC is an acronym for.

Navy Response: “Area of Concern (AOC)” is written in Section 1.3.3 and will be written out in the title for Section 2.2.1 as well “Area of Concern (AOC) Evaluation.

7. Attachment B was not attached to the document for review.

Navy Response: Attachment B was eliminated because it is the same as Figure 1-3. Reference to Attachment B will be removed from the document.
