Norfolk, VA 23511-2699

Dear Ms. Glodis:

Subject: Concurrence Request
Navy CLEAN II Program
Contract No. N62470-95-D-6007
Allegany Ballistics Laboratory
Contract Task Order 0116

CH2M HILL hereby requests LANTDIV's concurrence on the purchase of three extraction pumps for the Site 1 groundwater remediation system. The current CTO 116 budget has money allocated for the purchase of only one pump during fiscal year 2000 (10/01/99 through 9/30/00). To date, a total of four pumps have failed, requiring replacement, and requiring Navy concurrence on the purchase of the three additional pumps. Please note that we are incorporating the purchase of these three additional pumps into the CTO 116 modification currently under preparation so that the overall CTO budget will accurately reflect spending on replacement pumps. The total cost to purchase the three pumps is approximately \$4185, including award fee.

Please indicate your concurrence to this modification by signing on the appropriate line below. Any questions regarding this correspondence should be directed to Mr. Brett Doerr, Activity Manager, at (703) 471-6405, extension 4320, or Ms. Jennifer Groat (Contract Administrator) at extension 4609.

Sincerely,
CH2M HILL
