Re: Draft Site 1 Focused Feasibility Study,
Allegany Ballistics Laboratory (ABL),
October, 1994

Dear Mr. Bass:

Enclosed please find the Navy's responses to comments received on the subject document. Resulting changes have been made and are in the Draft Final Site 1 Focused Feasibility Study provided to you under separate correspondence from CH2M Hill.

The Navy requests you review these responses and the resulting changes to ensure they address and satisfy your concerns. Further, we request you provide any comments on these responses in advance of our meeting at the office of the West Virginia Division of Environmental Quality on April 30, 1996. We wish to discuss and resolve any differences at that time.

I thank you for your input and look forward to continued cooperation on all work we plan to accomplish at ABL. Please contact me at (804) 322-4795, should you have any questions or would like to further discuss any matter.

Sincerely,

J. J. KIDWELL
Remedial Project Manager
Installation Restoration Section
(South)
Environmental Programs Branch
Environmental Quality Division
By direction of the Commander
