Mr. Dave McBride  
Hercules, Inc.  
Allegheny Ballistics Laboratory  
Short Gap, WV

Dear Mr. McBride,

Thank you for your cooperation during our June 25, 1980 inspection for hazardous waste management. The information provided during our visit helped us greatly in our determination of the hazardous waste situation at Allegheny Ballistics Laboratory.

I would like to take this opportunity to follow-up on our conservation of June 25, concerning the beryllium contaminated wastes disposed of in the land burial site. Again, I must stress that these wastes must be removed in order to protect groundwater quality on-site. The wastes shall be removed within 90 days of this letter, and the method and location of disposal shall be reported to this office as soon as possible.

If you have any questions, please feel free to contact me at 304-348-0375. Thank you for your cooperation.

Sincerely,

WATER RESOURCES DIVISION

Joe Hughart  
Geologist  
Ground Water/Hazardous  
Waste Section
