Re: Review of the Advanced Site Inspection of Site 11

Dear Mr. Kidwell:

The Office of Waste Management/ Site Investigation and Response (OWM/SIR) has reviewed the Advanced Site Inspection of Site 11 at the Allegany Ballistics Laboratory (ABL), Rocket Center, West Virginia.

OWM/SIR concurs with the Navy's conclusion. Further investigation is necessary to better define the nature and extent of the contamination in soil and groundwater around F-Well and the former oil pit area.

If there are any questions, or if you require further clarification, please contact me at (304) 558-2745.

Sincerely,

Thomas L. Bass
Environmental Resource Specialist II
Site Investigation and Response
Office of Waste Management
