Dear Mr. Reisch:

Here are two copies of the Draft Project Plan Addendum for Sediment, Surface Water, and Surface Soil Sampling at Multiple SWMUs to Support Ecological Risk Assessment, Direct Push Technology Investigation to Support MNA at SWMU 15, and Monitored Natural Attenuation Study at SWMU 15. This Addendum to the DPT Work Plan for SWMU 2C defines sampling tasks and field investigation procedures that will be performed during the additional Naval Air Station, Oceana investigation and site characterization to take place between mid-December 1999 and the end of January 2000.

I have also forwarded one copy of each memorandum to Jeff Harlow, Bob Stroud, Steve Mihalko, Peter Knight and John McCloskey. I also included a copy of the SWMU 2C DPT work plan for Peter Knight and John McCloskey since they were not included in the distribution list for this non-ecological investigation.

If you have any comments or questions, please call me at 703/471-6405 x4321.

Sincerely,

CH2M HILL
