Comments
Site Management Plan FY 2009-2013
St. Juliens Creek Annex
Chesapeake, Virginia

General Comment:

Please remove the 2B and 3B before St. Juliens Creek Annex from the headers.

Specific Comments:

Section 3, Site Descriptions, Page 3-1, 1st Paragraph.

EPA Comment 1: The SMP states that 58 IRP sites, SWMU, and AOCs were identified for evaluation. The SMP goes on to say that 4 sites are currently active in the IRP and 55 sites have been considered NFA under the IRP. Please update the text or explain the apparent discrepancy as 55(NFA) +4(active) does not equal 58.

Section 3, Site Descriptions, Page 3-9, 1st full paragraph.

EPA Comment 2: Please include a sentence or two that states potential risks identified from the vapor intrusion investigation may lead to addendums to the RI and FS (as was discussed at the partnering meeting).
