Subject: SJCA Site 21 RI and FS Addendum

Team -

Ahmet and I have reviewed the changes to the above referenced document and RTCs. The RTCs and changes to the document are acceptable.

FYI - VDEQ comment #23 was not incorporated into the document.

I don't see a need for a conference call Monday.

Thanks,
Karen

Subject: SJCA Site 21 RI and FS Addendum

Hi Team,

Attached are the redlined text for the final Site 21 RI and FS Addendum and the RTC letter for the outstanding VDEQ comment. The text has been redlined to incorporate changes made based on comments received on the draft document as well as to add the FS component to the document. The text change proposed in the last bullet of the response to EPA Comment 3 (previously provided in the RTC letter on July 27) has been slightly modified from the proposed change made in the RTC letter; the newly proposed change is shown in the text.

Please indicate if the responses to comments and incorporation of the FS component are acceptable. We currently have a team conference call to discuss the Building 1556 elevator on August 30. If the responses and redlined text are acceptable, please indicate if this conference call can be cancelled. Once we have acceptance of the EPA RTCs, this outstanding VDEQ RTC, and incorporation of the FS component we can submit the final document.

Thanks,
Adrienne Jones
