Subject: RE: Site 5 WP RTCs - VDEQ response

SJCA Team,

Good Afternoon! The revisions for the Work Plan Site 5 Removal Action should have arrived at everyone's desk.

We had an informative visit this morning from EODTECHDIV who is providing QA support. The contractor has the protective shielding installed, E&S controls in place, and the screener on site.

We are ready to re-start excavation (again!) literally within hours of receiving final acceptance of the work plan.

Karen and Bob, please respond with final acceptance.

Thanks!

Walt

Hi Folks -

The JV has sent out copies of the revised Work Plans and all should have them by now. Please review for any potential edits as we believe we have revised as discussed and are prepared to start excavation as soon as we get approval.

Many Thanks

Subject: Site 5 WP RTCs - VDEQ response

Team -

The responses to VDEQ comments and changes to the document are acceptable. Please note, I have not been able to review the new figures referenced in the RTCs.

Thanks,
Karen

Hi Group -

This response to comments is the collective of all comments and the responses provided. Lastly, it also includes the latest edits to be made on the stockpiling discussion.

Thank you

Walt/Janna -

Can one of you ask Craig to send me the official response to my comments on the Site 5 WP?

Thanks,
