Subject: Site 5 CCR - VDEQ comments

Team –

I have reviewed the Site 5 Construction Completion Report and submit the following VDEQ comments:

General Comments:

1. Section 1, sentence before bullets – consider adding a phrase to refer to the bullets, perhaps, “Due to the overall duration of the removal action and contractual limitations, the removal action was completed by the ... respectively) *and consisted of the following actions:*
2. Section 2.2, second paragraph, first sentence – was the “subsequent set of waste characterization samples” collected after the lead stabilization? If so, please insert a phrase confirming that in this sentence.
3. Section 2.6 – add the date for the monitoring well abandonment in this section
4. Section 2.9, first paragraph, last sentence AND third paragraph below bullets, second sentence – consider adding that no additional action was deemed necessary by the partnering team in addition to NAVFAC
5. Section 2.12.2, second paragraph – consider adding a sentence indicating when the seeding and planting activities were completed
6. Figure 2-1 – what is the significance of the line separating the two ecological risk-based removal areas in the eastern portion of the site?
7. Appendix B was not included with the report and VDEQ has not had an opportunity to review it.
8. Appendix E, final as-built survey – please indicate the language contained on the wetland signs depicted in the survey plat

Typographical Comments:

9. Table of Contents – the table of contents indicates Appendix F contains erosion and sediment control inspections and Appendix G contains analytical data, on the CD of the document the two appendices are switched – please correct
10. Section 1.3, third paragraph, fourth sentence – change “disced” to “diced”
11. Section 2.2, second paragraph, second sentence – change “Defence” to “Defense”
12. Section 2.4.1, second bullet, first sentence – reword to say, “Installation of the erosion and sediment controls began on July 30, 2008 for the excavation...”
13. Section 2.4.1, third bullet, second sentence – change “account of” to “account for”
14. Section 2.7, third sentence – insert “conducted” between “was” and “throughout”
15. Section 2.9, third paragraph below bullets, second to last sentence – change “Appendi E” to “Appendix E”
16. Section 2.9, fourth paragraph below bullets – remove extra period
17. Section 2.9.1 – the second sentence is confusing, consider changing “These items” to “The seven remaining items”
18. Section 2.9.1, last bullet – add space
19. Section 2.10, first sentence – remove the first “criteria”

20. Section 2.11, last paragraph, last sentence – change “are” to “is located”
21. Section 2.13, second paragraph – remove one iteration of “were removed”
22. Section 3 – change “(UXOQS)” to “(UXOQCS)”

Thank you for the opportunity to comment.
