Subject: RE: SJCA Site 2 FS Response to VDEQ Comments

Team -

Comment and Response #15:

After reviewing this RTC it is my understanding that the final determination of the high concentration area (and, thus, the treatment area) will be reevaluated following plume delineation during the design phase. If this is the case, the RTCs are acceptable.

Thanks,
Karen

Subject: SJCA Site 2 FS Response to VDEQ Comments

Team,

The responses to the VDEQ Revised Draft Final Site 2 FS (redline) are attached. EPA had no additional comments. Karen, please let us know if you concur with these responses. If so, we will distribute the document by September 30 to complete it in FY09.

For distribution of the final deliverable, please confirm the following quantities:
Walt – 2 hard copies, 2 CDs (one for Walt & one for Arun @ Lafayette River Annex)
Karen – 1 hard copy, 1 CD
Bob – 1 hard copy, 1 CD
John – 0 copies
Admin Record – 1 hard copy

Thanks~

Janna Staszak, P.E.
