Comment 1 (Section 3.2, Site Descriptions): Please review each "Activities Completed 2013" subsection for each site. Several of the subsections contain "will be" and/or "anticipated" as opposed to only including activities already completed. As this is an ever-changing document, revisions could constantly be made as paths forward and document submittal dates change.

Response: The referenced text has been reviewed and updated to remove the future tense and only acknowledge items completed to date.
