Re: Navy CLEAN II Program
Contract N62470-95-D-6007
Contract Task Order (CTO) 0236
Revised Draft Remedial Investigation (RI) Report for Site 11 – The Bone Yard
Naval Weapons Station (WPNSTA) Yorktown, Cheatham Annex (CAX), Williamsburg, Virginia

Dear Ms. Cole:

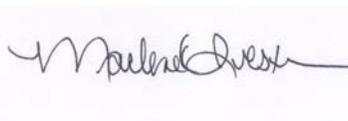

Baker has completed the Step 3A of the Baseline Ecological Risk Assessment for CAX Site 11 and has revised the applicable sections of the Draft RI Report. As this revision resulted in changes to specific sections and not the whole document, we have put together replacement pages so recipients of the Draft RI can update their copies of the document. One electronic copy of these replacement pages has been sent to you via email. (Note: If you no longer have a hard or electronic copy of the draft, let me know and we will get a copy to you.)

Additional copies of the replacement pages have been distributed to the Yorktown Partnering Team and other parties, as detailed below. Baker has distributed John McCloskey's copy directly to him, and has sent Peter Knight's copy to Greyson Franklin for distribution. Mr. Franklin also will formally request BTAG's technical review. As this is a primary document, comments will be due in 60 days and are requested by April 10, 2006. (Should BTAG need more time because of scheduling, I ask Mr. Franklin to let me know so I may adjust the comment due date accordingly.)

Baker appreciates the opportunity to provide support to NAVFAC Mid-Atlantic and WPNSTA Yorktown. If you have any questions regarding this deliverable, please contact me at (757) 631-5462.

Sincerely,

BAKER ENVIRONMENTAL, INC.

Marlene Ivester
Project Manager
