Final Site Inspection Report, Areas of Concern (AOCs) 1, 2, 6, 7, and 8
Cheatham Annex, Williamsburg, Virginia
Navy Clean Program - Contract N62470-08-D-1000
Contract Task Order 0056

Dear Mr. Park:

As you and I have discussed previously, while preparing the Area of Concern (AOC) 7 Engineering Evaluation/Cost Analysis, we (CH) discovered an error with the reported sampling depth for AOC 7 subsurface soil sample CAA07-SO02. It was reported in the Site Inspection (SI) report as being collected from the 6- to 24-inch depth, when in fact the correct depth was 14 to 16 feet below ground surface. This reporting error does not change the overall conclusions and recommendations presented in the SI. However, it did require some minor revisions to select areas of the AOC 7 portion of the SI. Therefore, please find one set of replacement pages and a CD for the referenced document. Additional copies have been distributed to the Cheatham Annex (CAX) Tier I Partnering Team, as outlined in the distribution list below. The Administrative Record copy has been corrected, as well.

To assist with updating your binder, here are replacement page instructions:
