Subject: *Draft Removal Closeout Report, Site 11 – Bone Yard, Naval Weapons Station Yorktown, Yorktown, Virginia, Cheatham Annex Site, April 2000*
Correction to the Cheatham Annex Administrative Record

Dear Mr. Murray:

This letter to the Cheatham Annex Administrative Record (AR) is being submitted to clarify that the *Draft Removal Closeout Report, Site 11 – Bone Yard, Naval Weapons Station Yorktown, Yorktown, Virginia, Cheatham Annex Site* (AR document 001477) is considered the final version of the document.

The document summarizes drum/container removal activities that occurred at Site 11, as well as results of the November 1999 soil sampling event conducted in the vicinity of the drums/containers that were removed in 1997. The sample results were compared to USEPA Risk Based Concentrations for residential soil; however, no risk screens, conclusions, or recommendations were presented. The draft document was submitted for Partnering Team review April 2000, and nearly two years later (according to the February 2002 Partnering meeting minutes), no comments had been received. Since the document presented a summary and did not require a Partnering Team decision on the path forward for Site 11, it is appropriate to consider the draft document the final document.

If you have any questions, please contact me at 757-873-1442, x41634.

Sincerely,

CH2M HILL
