Re: SSP at SSAs 1, 6, 7 and 15, Schedule Modification,
WPNSTA Yorktown, Yorktown, Virginia

Dear Mr. Thomson:

LANTDIV is informing the USEPA of a schedule change necessary for the Draft Site Screening Process (SSP) Report for Site Screening Areas (SSAs) 1, 6, 7 and 15 at the U.S. Naval Weapons Station (WPNSTA) Yorktown, Yorktown, Virginia. The deliverable date established in the Site Management Plan is May 15, 1995. As per our discussion of April 24, 1995, a new deliverable date of June 30, 1995 for the Draft SSP Report is recommended. The basis for this change is provided below.

The SSP Report will be comprised of data from the recent removal action (confirmation surface soil sampling). LANTDIV and its contractor, Baker Environmental, Inc. (Baker) had difficulties obtaining all of the removal action data from the removal action contractor in a timely fashion. Once the data is received, Baker will evaluate the data in the SSP process.

Please indicate your concurrence of changing the Draft SSP Report deliverable date by signing on the appropriate line below. Based on this change, other target dates for the remaining deliverables for SSAs 1, 6, 7 and 15 may also have to be modified at a later date. If you have any questions regarding this correspondence, please contact me at (804) 322-4589.

Sincerely,

G. P. HATCHETT
Remedial Project Manager
Installation Restoration Section
(North)
Environmental Programs Branch
Environmental Quality Division
By direction of the Commander
