Subject: Draft Final Site 3 FS

Good morning everyone,

Attached for your review is the Site 3 Draft Final FS files. As a reminder, for this deliverable/project only we agreed to "color-code" the changes in the document based on whose comment it addressed. This can be identified through the track changes in the word file. This include Katherine Will's comments (Navy.Legal) as well as USEPA and VDEQ. Changes in the tables and appendixes are also colored, but since it's a PDF you can't identify directly whose comment resulted in the change. If you were to go back to your submitted comments, you'd be able to tell which ones you supplied.

Please review the redline document, tables, figures, appendixes and inform us if your comments have been addressed. If you would, **please confirm the changes by Thursday, January 30th**. Please let me know if you have any questions.

Thanks,
Bill
