Subject: Final Action Memorandum for Non-Time Critical Removal Action, Revision 1
Operable Unit 5, Site 15 [Blue 10 Ordnance Disposal Area]
Naval Air Station Cecil Field
Jacksonville, Florida

Dear Mr. Sanford:

On behalf of the Navy, enclosed please find the final Action Memorandum for Non-Time Critical Removal Action at OU5, Site 15 [Blue 10 Ordnance Disposal Area] (1 hard copy, 1 CD). Several conference calls and meeting discussions have taken place and several sets of comments were received from U.S. EPA and FDEP; this final version of the document was authorized by the U.S. EPA and FDEP for submittal and the authorization documentation is attached. Copies have been sent to the members of the NAS Cecil Field Partnering Team as identified below.

If you have any questions, please call me at 412-921-8163, Linda Klink at 412-921-8650, or Mark Jonnet at 412-921-8622.

Sincerely,

Robert F. Simcik, P.E.

Dear Mr. Sanford:

The U.S. Environmental Protection Agency (EPA) has received and reviewed the Rev 01, Non-Time Critical Removal Action Memorandum for OU 5, Site 15, Blue Ordnance Disposal Area, NAS Cecil Field, Jacksonville, FL (FL5170022474) dated July 9, 2012 and the responses to the EPA's comments on the draft version of this document. All of EPA's concerns and requests have been adequately addressed.

Please finalize the document and initiate the planned non-time critical removal action. The EPA appreciates the excellent coordination and the effort to accomplish this task, and looks forward to seeing the Site 15 action completed. Please contact me at 404-562-8539 or at Vaughn-wright.debbie@epa.gov if you have any questions or concerns.

Sincerely,

Deborah

RE: Draft Action Memorandum for Non-Time Critical Removal Action for Operable Unit 5, Site 15, Blue 10 Ordnance Disposal Area, Revision 1, Naval Air Station Cecil Field, Jacksonville, Florida.

Dear Mr. Sanford:

I have completed my review of the Draft Action Memorandum for Non-Time Critical Removal Action for Operable Unit 5, Site 15, Blue 10 Ordnance Disposal Area, Revision 1, Naval Air Station Cecil Field, dated July 2012 (received by e-mail on July 9, 2012), prepared by Tetra Tech NUS, Inc. The preferred remedy proposed in the Non-Time Critical Removal Action (identified in the Feasibility Study (FS) as Alternative 2C) is Areas of Concern, Select Surface and Shallow Subsurface munitions and explosives of concern (MEC) and Anomaly Removal with mechanical excavation and manual investigation and removal. Based on my review, the proposed action appears to be a reasonable response to MEC that may remain at Site 15. Please note that based on the amount, type and distribution of MEC identified and remediated under Alternative 2C, the Department may conclude that further investigation and remediation of MEC would need to be conducted, possibly alternatives 3C or 4C as identified in the FS. However, the report as submitted appears suitable for its intent and may be finalized.

If you have any concerns regarding this letter, please contact me at (850) 245-8997.

Sincerely,

David P. Grabka, P.G.
