RE: Draft Site Assessment Report for South Fuel Farm, Naval Air Station Cecil Field,  
Jacksonville, Florida

Dear Mr. Art Sanford:

I have completed my review of the Draft Site Assessment Report for South Fuel Farm, Naval Air Station Cecil Field, dated July 2011 (received July 7, 2011), prepared and submitted by Tetra Tech NUS, Inc. Before committing the Navy to the proposed Natural Attenuation Monitoring Plan by issuing a Department Order and enshrining the milestone objectives in Section 4.0 in that Order, I suggest another round of groundwater monitoring to verify the sizeable reductions in contaminant concentrations seen between the June 2010 and the February 2011 sampling event.

If you have any concerns regarding this letter, please contact me at (850) 245-8997.

Sincerely,

David P. Grabka, P.G.
