Dear Mr. Vazquez:

The Environmental Protection Agency (EPA) has reviewed the documents, "Site Assessment and Characterization of the Fuel Pipeland Area and Site Assessment and Characterization of the Recreational Vehicle Family Camping Area", Carswell Air Force Base June 1, 1998. Although specific comments may not be required, the reports are being used by the Air Force to categorize property as uncontaminated for eventual transfer. Based upon a review of the data in this report, additional concerns are noted below.

The conclusions reached in these reports are based upon analytical data from Inchcape Testing Service. Due to concerns with validation of data from Inchcape, the data should be considered suspect. I cannot concur with the listing of the property as Category 1, based upon this data.

Please contact me at (214)665-8306 should you wish to discuss this further.

Sincerely,

Gary W. Miller
