RE: Carswell Air Force Base  
 TNRCC Solid Waste Registration No. 65004  
 EPA ID. No. TX0571924042  
**Review of Proposed Route 183 Well Locations**

Dear Mr. Vazquez:

The Texas Natural Resource Conservation Commission (TNRCC) has completed our review of your letter dated May 3, 1999 and received by the TNRCC on May 6, 1999 which outlines the proposed installation of two (2) off-site monitoring/extraction wells at Naval Air Station Fort Worth (Carswell Air Force Base). According to your letter and attached well location map, the proposed wells will be located on the Texas Department of Transportation (TXDoT) right-of-way near the intersection of White Settlement Road/Roaring Springs Road and Route 183. The purpose of these monitoring/extraction wells is to confirm the off-site presence of trichloroethylene (TCE) in ground water and/or to prevent TCE contaminated ground water from moving off-site.

Based upon our review, the TNRCC concurs with the proposed well locations. AFBCA is encouraged to expedite easement negotiations with TXDoT so that these wells can be installed at the earliest opportunity.

If you have any questions, please contact me at (512) 239-2360, Mail Code MC 127, e-mail [mweegar@tnrcc.state.tx.us](mailto:mweegar@tnrcc.state.tx.us).

Sincerely,

Mark A. Weegar, Project Manager  
 Corrective Action Section  
 Remediation Division
